

2025

YEAR IN REVIEW

We sincerely appreciate your ongoing support and assistance as we work to enhance our impact in the Lehigh Valley. We are excited to share that we have granted \$20,000 to the Lehigh Valley Hospital Network (LVHN) Topper Cancer Institute to fund clinical trials, and \$5,000 to St. Luke's University Health Network (SLUHN) to aid in pancreatic enzyme assistance.

Additionally, we allocated \$2,500 to the patient assistance fund for five families affected by pancreatic cancer at LVHN. This provides direct support to help preserve dignity and stability to families in need during active treatment. We also contributed \$2,500 to SLUHN to support multiple families with essential household needs. These initiatives directly benefit patients and families in our community, alleviating financial burdens and allowing them to focus on what truly matters—care, healing, and cherished time together.

Moreover, we are pleased to announce our continued sponsorship of an educational program for the community, *Advances in Pancreatic Cancer*, hosted by LVHN. We learned that the immunotherapeutic pancreatic cancer vaccine offers promising hope. This medication trains the immune system to combat the recurrence of pancreatic cancer by targeting specific genetic mutations that drive cellular growth. LVHN Topper Cancer Institute has observed encouraging results in phase 1 clinical trials and is now advancing to phase 2 trials. Notably, the institute is among the few cancer centers in the region, and one of only a dozen sites nationwide, participating in the phase 2 trial. These trials offer potentially life-saving therapies for patients facing limited time. We are privileged to support individuals enrolled in these clinical trials.

Our success is made possible by your generosity, and we want to express our heartfelt gratitude for your unwavering support! **Our total funds raised to date is \$134,273!** We eagerly anticipate 2026 with the launching of our updated website and the numerous opportunities to raise funds, engage with the community, and make progress toward curing pancreatic cancer.

WHAT'S COMING IN 2026

check our social media and website for event tickets &

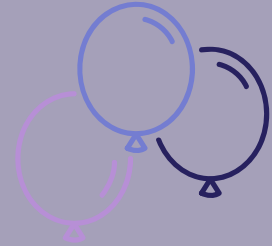

The Fightin' Foran's Foundation was created in 2023 to honor Gerry Foran and to fight for a cure for pancreatic cancer.

Our foundation proudly carries forward Gerry's legacy through three pillars: Pancreatic Cancer Clinical Trials, Early Detection, and Advocacy & Patient Assistance.

We are proud to have raised \$134,273 since our inception in support of our mission.

Family Fun Day!

Sunday, June 14, 2026
12:00pm - 4:00pm
Foundation Tavern
1160 S. Krocks Rd. Allentown, PA 18106
RAIN OR SHINE EVENT

Pilates for a Purpose

DATE - TBD
SoliderFit Trexlertown
7150 Hamilton Blvd
Suite 220, Trexlertown, PA
